

Synthesis

A reaction in which 2 or more substances combine to form a new compound

COMBUSTION "CH"
A reaction of an organic
compound in which heat is
released

Toughest to balance

Decomposition-

A Reaction in which a Single compound Breaks down To form two or more Simpler compounds.

Single replacement

A Reaction in which one element replaces ANOTHER element in a reaction.

Double replacement

A reaction in which elements
ARE exchanged between 2
COMPOUNDS
